

- = best solution
- ◇ = alternative solution
- *1 = do not use on ground or polished limestone and concrete

Concrete blocks and natural stone, indoors and outdoors

The **AKEMI** Stain Guide offers non-binding recommendations and does not guarantee that all the stains mentioned here can be removed completely. Before any of these products are used, they should be tested in order to check their compatibility. Please consult the technical instruction sheets of the individual products for the exact method of application.
